DRUG DEVELOPMENT SERVICES

## PRESS RELEASE

### Particle Sciences Receives Patent For Aerosol Delivery

BETHLEHEM, PA, July 25, 2013 -- Particle Sciences, a leading drug delivery CDMO, has received a Notice of Allowance on a method of manufacturing and delivery of aerosolized drug carrying particles. According to Mark Mitchnick, MD, CEO, "This latest patent is a nice addition. It stems from work we did a number of years back and adds to the increasing pool of proprietary and public domain approaches Particle Sciences can offer its clients. Through in-house invention and strategic acquisition Particle Sciences will continue to build a technology portfolio aimed at giving our clients a tangible competitive advantage." Particle Sciences has been a leader in particulate based drug delivery with a focus on commercially ready advanced drug delivery technologies. This particular technology can use GRAS excipients and offers a very efficient and scalable way for companies looking for a pulmonary delivery system.

*Particle Sciences is an integrated provider of drug development services. Particle Sciences focuses on BCS II/III/IV molecules, biologics and highly potent compounds through a variety of technologies including emulsions, gels, micro and nano-particulates, drug/device combination products, solid solutions and others. Particle Sciences is FDA registered and DEA licensed. Through a full range of formulation, analytic, and manufacturing services, Particle Sciences provides pharmaceutical companies with a complete and seamless development solution that minimizes the time and risk between discovery and the clinic. The company was founded in 1991 and is headquartered in Bethlehem, Pennsylvania.
