Particle Sciences Expands Bethlehem, PA facility

Press Release May 5, 2008: Particle Sciences has expanded its Bethlehem, PA facility from 9,000 to 15,000 sqft. The expansion includes additional formulation and analytic laboratories needed to accommodate Particle Sciences' staff growth. "This is the latest in a series of technology and infrastructure investments Particle Sciences is making in response to our clients' growing needs" says Garry Gwozdz, Director of Formulation at the company. "As a CRO, we are seeing increasingly challenging drug delivery and analytic projects. Investments such as this show that Particle Sciences' management is committed to providing its client's with the best possible solution."

Particle Sciences is an integrated provider of drug development services. Particle Sciences focuses on emulsions, gels, particulates and drug/device combination products with additional specialized capabilities in topical and mucosal drug delivery. Through a full range of formulation, analytic, and manufacturing services, Particle Sciences provides pharmaceutical companies with a complete and seamless development solution that minimizes the time and risk between discovery and the clinic. The company was founded in 1991 and is headquartered in Bethlehem, Pennsylvania.
